This stunning route follows the paved Whiptail Trail on a gentle ascent, passing the region's famed red-rock and white

Navajo sandstone formations in an otherworldly landscape of ancient lava flows and soaring cliffs. You'll have time to explore on foot if you wish. Reach a scenic overlook near the park's highest point, then return along the same route or continue on a longer loop.

After breakfast, shuttle to Cedar Breaks National Monument, where today's ride begins with a gentle 34-mile descent to the historic frontier town of Panguitch, listed on the National Register of Historic Places. Enjoy an included lunch here before continuing your ride toward Bryce Canyon.

Your route showcases the dramatic contours of Utah's wilderness—a breathtaking tableau reminiscent of the Old West. For more intrepid cyclists, an optional moderate ride from Panguitch Lake to Panguitch may be offered, weather permitting. The main route leaves Panguitch and enters the Dixie National Forest, stopping at the Red Canyon Visitor Center. From there, pedal along the scenic Red Canyon Bicycle Trail, surrounded by low shrubland, vibrant red earth, towering cliffs, and majestic ponderosa pines. The region's spellbinding palette—rusty reds, deep oranges, and ghostly white striations—comes to life as you

cycle past massive buttes and slender hoodoos. A highlight of the day is the Red Canyon Arch, a spectacular natural formation carved into the sandstone.

Your ride ends in Bryce Canyon City—originally called Ruby’s Inn, renamed in 2007. Founded in 1916 by Reuben C. “Ruby” Syrett, the town remains a quaint settlement with just a few hundred residents. Dinner is on your own this evening.

You may return to the hotel the same way, or opt for a longer route along the Bryce Canyon Scenic Drive. This spectacular 18-mile road stretches the full length of the park. Pause to admire landmarks like Natural Bridge—an 85-foot arch sculpted by erosion—and Agua Canyon, a favorite perch for the majestic California condor.
